YOUR EXPEDITION TEAM

Seasoned naturalists, who have traveled extensively in the most remote regions of the world, accompany you as your Antarctic Expedition Team. Their areas of expertise include marine biology, ornithology, ecology, geology, glaciology, conservation and environmental education, history and photography. Collectively these experiences make them exceptionally well-suited to lead your Expedition to Antarctica. You will gain a unique insight on this majestic part of the world as they share their knowledge and answer questions.

WILDLIFE CONSERVATION

The unique international Antarctic Treaty protects the wildlife and natural habitats of Antarctica and provides a guide for visitors to this continent where no country has sovereignty. To protect the fragile Antarctic environment, all visitors will go ashore in small groups, so as not to crowd rookeries, disturb nesting sites or disrupt research. Visitors will be asked not to leave a trace of their presence, by not removing or leaving anything ashore.

Take in spectacular views of the Antarctic landscape its unique wilderness

Dear UCLA Alumni and Friends,

"Everything wears an aspect of unreality," Ernest Shackleton wrote. "Icebergs hang upside down in the sky; the land appears as layers of silvery or golden cloud. Cloud banks look like land, icebergs masquerade as islands..." Be among the fortunate few to set foot on the continent of Antarctica. During this extraordinary 14-day journey to the bottom of the world, retrace sea lanes navigated by storied explorers Shackleton, Roald Amundsen and Robert Falcon Scott, inspired to seek out "The White Continent." See how spectacular illuminations of this last frontier reveal the majesty and contrasts of its unique wilderness.

Watch as normal human scales and reference points disappear amidst the grandeur of nature in its most pristine form—from extended sunrises that paint the icescape in soft shades of pink to the lingering golden light of the austral summer, where humpback whales, leopard seals and Adélie penguins swim among turquoise glaciers and glimmering icebergs.

Cruise for nine nights aboard the exclusively chartered *LAustral*—both Five Star and ice class rated—and one of the ships within the finest fleet plying Antarctic waters. All accommodations afford ocean views and 95 percent feature private balconies. *LAustral's* state of the art technology and design set high standards in environmental protection and comfort.

Your onboard team of naturalists will guide excursions aboard sturdy Zodiac crafts as you explore amid floating ice sculptures, intricate ecosystems and abundant wildlife species that have adapted to the harshest weather conditions on Earth—including penguins and seals that exhibit little or no fear of humans. A comprehensive schedule of exclusive and specially arranged lectures will complete your optimal Antarctic adventure.

I have personally traveled to Antarctica twice if you have any questions. It truly is an expedition of a lifetime. Join Professor Andrea Ghez and fellow Bruins this January on a tour that sells out quickly every year. Make your reservation today.

Sincerely,

Christel Aragon

Study Leader

Andrea M. Ghez, professor of Physics & Astronomy and Lauren B.

Leichtman & Arthur E. Levine chair in Astrophysics, is one of the world's leading experts in observational astrophysics and heads UCLA's Galactic Center Group. Her work has provided the best evidence to date for the existence of supermassive black holes and has opened a new approach to understanding these exotic objects. In 2020 Andrea was awarded the Nobel Prize in Physics by the Royal Swedish Academy of Science. She has received numerous other honors and awards including the Bakerian Medal from the Royal Society of London, a MacArthur Fellowship, election to the National Academy of Sciences, the American Academy of Arts & Sciences, and the American Philosophical Society.

The safety and well-being of our travelers remains our highest priority. Cruise lines and some other providers of services (as well as, potentially, some countries) require all passengers traveling on our programs to present confirmation of a full COVID-19 vaccination, and, as well, passengers may have to produce evidence of a recent negative COVID test. All our staff are committed to adhering to all health and safety protocols from the start of your trip to the end as directed by the United States Centers for Disease Control and Prevention, overseas health officials as well as those protocols mandated by your cruise company (if applicable) and other suppliers of services. Detailed protocol information tailored to your travel program will be mailed to you along with additional pre-departure information.

PROGRAM HIGHLIGHTS

Antarctic Exploration

Legendary explorers and aviators

ushered in the Heroic Age of Antarctic Exploration with gripping tales of their journeys, spearheading technological advances that laid the foundations for the mechanical age of discovery. Admiral Richard Evelyn Byrd accomplished the first flight over the South Pole during the U.S. expedition of 1928-30 utilizing groundbreaking navigational technology. His subsequent expeditions to Antarctica would greatly advance polar research and mapping of the continent. As one of the most remote regions left in the world, Antarctica retains the mystique of nature in its most pristine form.

DAY BY DAY ITINERARY

U.S. or Canada Day 1

Depart home city.

Buenos Aires, Argentina Day 2

Arrive in Buenos Aires and check into the Five-Star INTERCONTINENTAL BUENOS AIRES HOTEL, located in the historical San Telmo neighborhood within walking distance of the landmark Palace of the Argentine National Congress.

This evening, attend the Welcome Reception.

Buenos Aires Day 3

Buenos Aires is a city of diverse *barrios* (neighborhoods). See the colorful La Boca district, Monserrat's grand public buildings, historical Plaza de Mayo, Palermo's lavish parks, Puerto Madero's lively riverfront community and the charming old quarter of San Telmo.

Visit the city's historical Recoleta Cemetery, famous for its ornate vaults and sculptures and as the final resting place of the legendary Eva Perón, the former First Lady of Argentina.

Buenos Aires/Ushuaia Day 4

Fly to Ushuaia and embark the ship. This afternoon, cruise Beagle Channel, named for the ship that carried Charles Darwin on his South American voyages.

Attend the Captain's Welcome Reception this evening.

Cruising the Drake Passage Day 5 and Day 6

Cross the Drake Passage and, upon reaching the Antarctic Convergence, watch for breaching humpback whales and seabirds feeding on plankton and krill. Your expedition team will prepare you for your first landing in Antarctica. During the evening, enjoy the twilight of the Antarctic summer.

Port Lockroy/ Jougla Point Day 7

Visit Port Lockroy, built as a British intelligence port during World War II, then converted into a whaling station and scientific base. Observe the daily activities of past researchers at the living museum known as "Base A" and mail a postcard with an Antarctica postmark from the official British Post Office.

Jougla Point on Wiencke Island offers a rare opportunity to view the skeletal remains of an adult blue whale and view populous colonies of gentoo penguins and kelp gulls that inhabit the region.

Petermann Island/ Lemaire Channel Day 8

Call at Petermann Island and watch its rookeries of Adélie and gentoo penguins and blue-eye shags.

Flanked by towering glacial cliffs between the Antarctic Peninsula and Booth Island, cruise through the Lemaire Channel, where seven miles of mountains and interweaving patterns of ice floes brim with wildlife.

Neko Harbor/ Paradise Harbor Day 9

Listen for the low rumbling of Rudolf Glacier as it calves slabs of ice into Neko Harbor for a continental landing. Surrounded by soaring glaciers and snow-covered mountains, this spectacular harbor is one of the most dramatic sights on your expedition.

In Paradise Harbor, crystal cliffs of ice descend from sky-bent mountains into the iceberg-laden waters along the Antarctic Peninsula's western coast. Named by 19th-century whalers who sought shelter in its coves, it is an ideal sanctuary for marine wildlife including humpback whales, crabeater seals, and Cape petrels.

Deception Island, South Shetland Islands/ Half Moon Island Day 10

Deception Island encircles the Port Foster caldera. In Pendulum Cove, see the geothermically heated shallows.

The crescent-shaped Half Moon Island is known for its volcanic rock formations and tranquil lagoons. It houses Cámara Station, a base monitored by Argentine biologists studying regional wildlife. Here, observe the island's colony of chinstrap penguins.

Attend the Captain's Farewell Reception.

Day at Wendell Sea Day 11

Cruise below the 60th parallel south to the outer shores of the Antarctic Peninsula, Earth's last frontier. Witness towering mountains of ice and volcanic rock create precipitous coastlines and islands. A vast array of marine wildlife flourishes, including millions of penguins, countless seabirds, and thousands of seals and whales. An otherworldly topography of volcanoes and glaciers, populated

with historic outposts, captures the nuance of Earth's most inaccessible continent for the complete Antarctic experience.

Cruising the Antarctic Convergence/ Beagle Channel/ Ushuaia, Argentina Day 12

Cross the Antarctic Convergence and the Drake Passage. The crossing is completed with the rounding of Cape Horn; the graveyard of hundreds of ships

that once battled the westerly winds. Here, the ship will go East then turn north toward Beagle Channel back to Ushuaia.

Ushuaia/Buenos Aires Day 13

Disembark in Ushuaia and fly to Buenos Aires. Continue on the Iguazú Falls Post-Program Option with an overnight stay in Buenos Aires or depart for home city.

U.S. or Canada Day 14

Arrive in home city.

Chinstrap Penguins
