Dear Alumni and Friends,

Baja California is a remarkable destination. It provides an opportunity to discover and revel in a pristine wilderness few people imagine exists in our North American 'backyard.' The Baja you explore is remote, wild, and untrammled—and yet not far at all: a short hop from the West Coast. And for East Coast and Midwest travelers, Baja is worth your jet travel, especially in the winter with its desert warmth, beauty, scenic undersea, and amazing wildlife.

Roam freely aboard the new *National Geographic Venture*, a nimble expedition ship ruled by wind, wave, and weather, and have the kind of experiences that only nature can provide. In winter, California gray whales give birth and raise their calves in the nursery lagoons. Spend time among them, as you board local pangas for extraordinary up-close encounters with these gentle giants and their playful calves, who often surface to make heart-warming eye contact with you.

Explore the Sea of Cortez, where there are countless opportunities to experience a living sea. Observe dolphins by the score and encounter a variety of whales, including breaching humpbacks and perhaps even rare blue whales. Snorkel lively coral reefs, hike into cacti forests of surreal beauty, kayak along remote coastlines—and generally have the place to yourselves.

See, learn, and do more with a team of expert naturalists, including an undersea specialist, who know this area well. For photographers, this paradise offers extraordinary light to capture it all with the help of a certified photo instructor.

Baja is one of those places on the planet that supplies the human spirit the tonic of wildness it needs. Few experiences are as rewarding. I hope you will be able to join us February 18-25, 2023. **To reserve your place, please return the reservation form or call 310-206-0613 for more information.**

Sincerely,

Christel Aragon  
Director, Alumni Travel

# HAVE UP-CLOSE ENCOUNTERS WITH GRAY WHALES

*Gray whale mother and calf surface close to guests.*

You can whale watch in a number of places in the world, but only in Baja can you have a personal encounter—and you will have plenty of chances to get up close to these gentle giants. Gray whales migrate annually from their feeding grounds in Alaska to the nursery lagoons on the Baja California peninsula to give birth and nurture their young. Spend time among the mothers and their calves, observing them at water level aboard local pangas guided by

expert locals. They are often incredibly social and have been known to push their newborn calves up to the pangas. Expert spotters and knowledgeable naturalists join you to ensure and enhance your experiences among these marvelous “friendlies.”

## EXPLORE PRISTINE ISLES AND A LIVING SEA

On the other side of the Baja peninsula, in the Sea of Cortez, you discover the uninhabited desert islands that dot the clear blue sea. Search for a variety of whale species, scores of leaping dolphins, and diving seabirds. Hike a forest of giant cacti, kayak or paddleboard in protected coves, snorkel with sea lions (conditions permitting), and join a naturalist aboard a Zodiac to observe the diverse birdlife along the shores. When you see Baja’s islands with their desert landscape, rugged cliffs, and white sand beaches reflected in an azure sea, you’ll understand immediately why they have been designated a UNESCO World Heritage site.

# THE PERFECT MOBILE BASE CAMP TO DISCOVER BAJA

*The lounge is the center of life aboard ship.*

With generous decks that take full advantage of the sun and ocean breezes, and create front-row seats on the remarkable spectacle of marine life in Baja, the new expedition ship *National Geographic Venture* is uniquely designed to make the most of being in this remote, soul-satisfying geography. The ship is more than comfortable, with

spacious cabins, some with step-out balconies, generous windows, and top amenities. Inviting public spaces foster an atmosphere of camaraderie—the lounge, which accommodates the entire expedition community, is where evening Recaps take place, and the casual dining room provides unassigned seating for easy mingling.

## ONBOARD TOOLS FOR DEEPER EXPLORATION

Because there is much to discover here—cactus forests, desert islands, beautifully indented shores, a calm sea with vivid life beneath the surface, and more, *National Geographic Venture* is equipped so you can explore. A fleet of Zodiacs lets you experience up-close encounters with whales, dolphins, and sea lions, and land on otherwise inaccessible uninhabited islands. Board one of the single or double kayaks for water-level views of the stunning scenery. Get up and out on a stand-up paddleboard for a personal adventure. Snorkeling gear for all aboard enables you to explore the thriving undersea. There's even a hydrophone for whale listening and a Remotely Operated Vehicle (ROV) which can operate up to 1,000 feet below the surface.

*Opposite page (clockwise from top): The National Geographic Venture is equipped to explore in comfort; kayaking in the calm water of the Sea of Cortez; snorkelers exploring the Sea of Cortez; enjoy yoga on deck; beach barbecue and bonfire under the stars; go paddleboarding for a personal perspective.*

# TRAVEL WITH AN A+ EXPEDITION TEAM

Discover Baja with a veteran expedition leader and a team of naturalists well versed in the region's flora and fauna. An undersea specialist/videographer shoots video for you to enjoy in the comfort of the ship's lounge, maximizing your understanding of Baja's incredible marine environment. A certified photo instructor assists you in capturing

moments at the heart of your experience. Plus, a wellness specialist helps enhance the relaxing and revitalizing benefits of life in this magical region.

## IN A LAND WITH PERFECT LIGHT, SHOOT GREAT PHOTOS

Make the most of the unrivaled photo ops of Baja California's wild islands, whales, dolphins, and seabirds with the Expedition Photography program. The onboard certified photo instructor offers assistance, instructions, and shooting tips in the field. Their expertise will inspire you and help you improve your skills—no matter your current ability or interest level—and ensure you return home with incredible photos.

### EXCLUSIVE ONBOARD GEAR LOCKER

Dive into the onboard B&H Photo Video Gear Locker to field test new lenses, camera bodies, and more—free. Plus, ask about pre-voyage discounts and benefits.

# BAJA CALIFORNIA & THE SEA OF CORTEZ: AMONG THE GREAT WHALES

8 DAYS/7 NIGHTS—ABOARD *NATIONAL GEOGRAPHIC VENTURE*

*The gray whales winter in the breeding grounds of Magdalena Bay.*

Seeing gray whales in their natural habitat is one of the great delights of this voyage. In Magdalena Bay, venture out in small boats among these magnificent creatures. In the Sea of Cortez, search for a variety of whales, plus dolphins, blue-footed boobies, pelicans, cormorants, and magnificent frigatebirds. You'll also snorkel pristine coral reefs, join naturalists on hikes amid barrel cacti and sculpted sand dunes, and see a variety of desert flora and fauna.

## **DAY 1:** LORETO/EMBARK

Upon arrival in Loreto, embark *National Geographic Venture*. Savor the sunset as we set sail. (D)

## **DAY 2:** EXPLORING THE SEA OF CORTEZ

Our plan is flexible as we explore some of the sea's many uninhabited islands. The captain and expedition leader will choose the perfect combination of activities for the day. We may go ashore at Isla San Francisco, where a sweeping arc of white sand beach beckons you to kayak or stand-up paddleboard. Or, hike to the nearby ridge for unparalleled views over Isla Danzante with your naturalist. You may also visit the abandoned salt works on Isla Carmen. You'll get a chance to see the great diversity offered in the Sea of Cortez, and with some luck, spot the amazing wildlife. (B,L,D)

## **DAY 3:** LOS ISLOTES AND LA PAZ\*

Awake this morning off the rocky island of Los Islotes, where we'll don flippers, a mask, and snorkel (which

we provide) and swim with curious sea lions (conditions permitting). Then we'll reposition to the colorful city of La Paz to garner insight into the culture of Mexico, soak in the vibrant street art, and stroll the lively *malecon* on a guided walking tour. Dinner will be an unforgettable cultural experience, complete with local cuisine, dancing, and folklore (B,L,D).

*\*Please note our stop in Los Islotes is dependent on sailing conditions.*

#### DAY 4: CABO PULMO AND GORDA BANKS

Kickstart your day snorkeling the pristine reefs of Cabo Pulmo National Marine Park, one of the most successful national marine parks in the world, and chat with locals about their advocacy to protect this unique place. We'll spend the afternoon searching the seas of Gorda Banks seamount, a renowned gathering place for whales, especially humpbacks, dolphins, and other sea life, capping off our day with a majestic sunset over the iconic Friars Rocks at Land's End. (B,L,D)

#### DAY 5: CRUISING AND MAGDALENA BAY

Ease into your day with morning stretch hosted by the onboard wellness specialist on the sundeck, enjoy a lecture, or join your naturalists onboard as we travel north along the coast of the peninsula. There is a chance of seeing a wide variety of marine life, including the largest animal on Earth, the blue whale. Midday, we'll arrive into Magdalena and anchor in the northern reaches of Magdalena Bay. (B,L,D)

#### DAY 6: BOCA DE SOLEDAD

Each winter, during their long migration, gray whales travel south from their Arctic feeding grounds to breed and give birth and raise their calves in these sheltered waters. We'll transfer by motorcoach to López Mateos and spend the full day observing, and with luck, interacting with these majestic creatures. Together with savvy local Mexican fishermen, we'll venture out in local pangas to view the numerous mother-calf pairs that thrive in this sheltering region. Enjoy lunch at a local restaurant before heading back to the ship in late afternoon. (B,L,D)

#### DAY 7: BAHÍA ALMEJAS/ REHUSA CHANNEL/ISLA MAGDALENA

Awake anchored in Bahía Almejas, the southernmost part of the Bay. We'll stop at a large frigatebird colony enroute to the spectacular whale grounds of Bahía Almejas. Whales in this part of the bay tend to be very active, seemingly oblivious to our presence, so settle in for some great experiences. During lunch, the ship will reposition to Isla Magdalena where we'll head to shore to explore the ever-shifting sand dunes on a cross-island walk to one of the most pristine beaches in the Pacific. Bird-watching here can be excellent, with abundant seabirds in action and shorebirds patrolling the beaches as they fatten up for long journeys to Arctic breeding grounds. (B,L,D)

#### DAY 8: SAN CARLOS/DISEMBARK/LORETO

Disembark in San Carlos after breakfast and transfer to Loreto. Enjoy free time to explore the quaint shops and vibrant side streets. After lunch, transfer to Loreto Airport for flights home. (B,L)
